Why Buy "International" Group Health Insurance?

Why Buy "International" Group Health Insurance?

Missionary sending organizations (MSO) need to provide for their career missionaries, staff and administrative personal while serving overseas and have discovered that "domestic" group plans provide little or no benefits while living abroad.

The new ACA government plans also do not provide coverage outside the US. Plus, in most countries the respective national insurance does not provide coverage back in the US in the event of incidental trips or longer furlough visits. "MissionaryHealth" International Group Plan has been specifically designed for and is only available to missionaries and their families to meet the challenges of international living.
