

# The “Bridge To Medicare” Plan

Bridge the Gap to Medicare Eligibility with this up to 3-year *unique* medical plan!

## The Facts

*Individuals ages 60–64 pay the highest premiums for ACA coverage. Many can't either afford it or don't want at their age to pay for all the "bells and whistles" an ACA plan provides.*

*They are more interested in coverage for larger expenses. Just one EZ to complete application will provide these types of desired benefits up to 3 years with NO balance billing!*

## Your Market

Those who are ages 60-64 & 11 months who are seeking a health care alternative other than an ACA or even a short-term medical plan that must be rewritten to Medicare eligibility. Plus, an excellent alternative to COBRA, those who have lost group coverage or anyone else ages 60-64 who are seeking a low-cost health insurance alternative.
